supporters are counting something on the impaired power of the people to buy. Taking from the census of 1880 some interesting figures relating to a few of the assaulted in lastries, we see how very much might be effected in this way:

placed in jeopardy by the Morrison bill. What part of this would be lost, we should have to discover by experience. The effect on the general business of the country would be to multiply many times the actual loss at first hands, as anybody will understand who considers the loss to this whole community by reason of the prolonged stoppage of the nail mills.

Our industries play so important a part in the life of the whole population, that it is difficult to measure exactly the harm that will follow an injury to any one of them. But this much is evident, Mr. Morrison's bill is well devised to do the country great damage.

Sauday Papers.

Some of the newspapers and some of the clergymen are at it again, discussing the old subject of Sanday newspapers. The conflict is raging with violence in Chicago, though it is not confined to that city. The subject of Sunday newspapers must be discussed, it seems, about once in so often, and perhaps the discussion does The INTELLIGENCES prints no Sunday

edition and may therefore mount the wooleack and sit in judgment. From this point of vantage we see no wroag in the Sunday paper as such. Where there is harm it results from putting in the Sunday paper such matter as ought not to be put in any paper.

There are publishers who assume that The bear remedy for Dyspepsia, Flatulenoy and Constipation. Guaranteed, and sold at 25c by Logan & Co. and Charles Menkemeller. paper such matter as ought not to be put

Such a publication is inherently bad, and would deserve no more countenance if it were printed on Monday.

The disfiguring cruptions on the face, the sunken eye, the pallid complexion, indicate that there is something wrong going on within. Expel the lurking foe to health. Ayer's Sarsaparilla was devised for that purpose; and does if. Newspapers vary as much as clergy-men. There is good work for both to do and while both must bave money or they cannot live, neither the editor nor the preacher, with a due regard for his work and his responsibilities, will be content to be a more money-getter.

A bayman's Services.

The Rev. Dr. S., who is a prominent divine in a city not far from New York, had been spending a few days—not in this weather—on an island on the Maine coast, and intending to depart on a certain morning, he started for the boat in company with a friend. A porter followed with the doctor's velice. Arriving at the wharf, they found that, to take advantage of the wind or tide, the boat had gone before the advertised time.

Not aware of the cierical character of the company, the porter swore several shocking oaths in quick succession.

"What do you mink of that, doctor," asked his friend.

"Well," said the doctor, slowly and impressively, "there are times when the services of a layman are indispensable."
